TECHNICAL DATA

UNIVERSO® BASIC | BASIC PLUS

The Universo models have everything it takes to ensure pleasant sitting: a tapered backrest for greater freedom of movement, good lateral support, and optimally angled cushions that are also easy to clean and replace, in addition to being available in either waterproof imitation leather or rugged fabric. Relaxed work is ensured by easy height and weight adjustment and flexible fore/aft positioning. The Universo Basic plus is additionally equipped with a fore/aft isolator to prevent potentially injurious jolts to the user's back.
