# TECHNICAL DATA

## TOUREA® WITH ACTIVE CLIMATE SYSTEM

The TOUREA Climate enables the driver to control the temperature of their environment whilst driving. On hot days, body moisture is removed and the seat remains pleasantly cool due to our active climate system. On cold days, you can use the seat heating to raise the temperature.

TOUREA Climate is also available with the integrated LANE DEPARTURE WARNING SYSTEM as an optional extra.

### Features • Standard equipment

Air suspension

Automatic weight adjustment

Pneumatic lumbar support

Adjustable shock absorber

Active seat climate system

Seat heating

LDWS
