

## IC3000 2ND CLASS

### *The All-Rounder*

#### Outstanding Benefits

- The seat is designed to meet the strictest safety requirements, especially with regard to fire and crash protection. The structural components, backrest cover, and attachments optimally protect travelers in compliance with current standards in the U.K.
- Head cushions in different comfort levels are available, with a protective cover and standard, medium, or comfort pillow.
- The seat optimally utilizes available space. A range of armrests with different widths and surfaces provides flexibility for different seating configurations.
- 1st class features such as a power socket and a footrest are also available.
